

COURTNEY GEDULDIG

***Corporate Vice President, Public Affairs
Micron Technology, Inc.***

COURTNEY GEDULDIG is Corporate Vice President of Public Affairs at Micron Technology, Inc. She joined Micron in February 2022.

Prior to Micron, Ms. Geduldig was Head of Government & Public Affairs at Chime Financial. She also previously served as Chief Public and Government Affairs Officer for S&P Global, where she was responsible for leading global government relations, communications, corporate responsibility, brand, digital, creative and corporate events. She started at S&P Global in 2013 as Senior Vice President of Global Regulatory Affairs and then as Managing Director, Global Government and Public Policy.

Before joining S&P Global, Ms. Geduldig was Managing Director and Head of Federal Government Relations at the Financial Services Forum in Washington, DC. From 2008 to 2011, she served as Chief Financial Counsel to Senator Bob Corker (R-TN), handling a wide range of issues and played a key role in advising Senator Corker on the Dodd-Frank Wall Street Reform and Consumer Protection Act. She also served as the Staff Director for the Subcommittee on International Monetary Policy (now National Security and International Trade and Finance). Ms. Geduldig also spent two years as the Deputy Assistant Secretary for Banking and Finance at the US Treasury Department.

In 2013, Ms. Geduldig co-authored the book *Where the Jobs Are: Entrepreneurship and the Soul of the American Economy*. She is an Independent Director on the Board of ReliabilityFirst, a Vice Chair on the Public Affairs Council Board, a Founding Member of the Washington DC chapter of CHIEF, a Board member of the MidAtlantic Positive Coaching Alliance, a Board member for ENGAGE focused on women's financial security, a member of the Washington Economic Club and is a member of the Maryland State Bar.

Ms. Geduldig is a mother of 4 and holds a Juris Doctorate from the University of Baltimore School of Law and a Bachelor's degree from the University of Maryland, College Park.

MICRON TECHNOLOGY, INC. (NASDAQ: MU) a leader in innovative memory solutions, is helping the world make sense of data by delivering technology that is transforming how the world uses information to enrich life for all. Through their global brands — Micron and Crucial — they offer the industry's broadest portfolio. They are the only company manufacturing today's major memory and storage technologies: DRAM, NAND, and NOR technology.

By providing foundational capability for innovations like AI and 5G across data center, the intelligent edge, and consumer devices, they unlock innovation across industries including

healthcare, automotive and communications. Their technology and expertise are central to maximizing value from cutting-edge computing applications and new business models which disrupt and advance the industry.

From their roots in Boise, Idaho, Micron has grown into an influential global presence committed to being the best memory company in the world. Micron reported sales of \$27.71 billion for their fiscal year ended August 2021.
